

The "small one" with self adjusting envelope feeding up to B4 size

Automatic, profitable, fast, reliable and clean.

Again many letters received?

The employees of various departments are waiting already impatiently for their incoming mail. Opening letters manually means, wasting time of the operator and getting the job of in-house mail distribution just done with a real time delay. The solution is the fast automatic letter opener **HEFTER Systemform OL 220**. A profitable solution for about 25 letters a day or more!

The **OL 220** opens your letters with the **slitting technology**. The advantage is that there is no paper waste. Envelopes of different formats up to 4 mm thickness are being opened reliably thanks to the self adjusting envelope feeding.

Unpack, plug and the opening process can start!

- Big tray with automatic, self adjusting feeding of your incoming mail up to B4 size
- Automatic start/stop function
- Reliable opening function of mixed mail thickness up to 4 mm
- The envelope is opened from the very left to the very right side
- Easy access to the content of the envelope
- Slitting technology: no waste disposal
- Practical receiving tray made of plastic
- Silent operation

Slitting technology: no waste disposal

Automatic start/stop function

Automatic, self adjusting feeding of the envelopes

Practical and nicely shaped receiving tray for opened letters
